

# Shaik Mohammed Hassaan

age=**20**

dob=**15/08/2005**

---

## Summary

Hassaan introduces himself as a creative technologist with a deep passion for designing, building, and scaling software solutions. With his expertise in full-stack development, he enjoys crafting elegant code, architecting resilient systems, and transforming complex ideas into user-friendly applications. He is driven to solve real-world problems, contribute to the open-source community, and evangelize about clean code and modern software architecture.
